

Tech Edit Rubric

The tech-editor judge should check every point below. The non-tech-editor judge only needs to look at the items marked with an *. Change the "available points" column according to your role.

Applicant Name

While all points should be checked, the judge DOES NOT have to correct the pattern, although you may want to make notes about good points or where improvements can be made.

Technical Details	Judge's Instructions	Judge's Notes	Total Points	Applicable Points	Points Given
Consistent use of standard punctuation and abbreviations	Self-explanatory-abbreviations should match style sheet		5		
*Pattern follows logical process and order; consistent use of language and direction			7		
Instructions included for each garment or garment piece			5		
RS and WS are appropriately designated	As often as needed		2		
Stitch counts are appropriately and accurately stated			5		
Fractions or decimals are appropriately used	They shouldn't be mixed, and only "standard" ones should be used		2		
All pattern numbers will yield schematic measurements	This is really important		20		
Stitch multiples are set up accurately in pattern			8		
*Yarn is appropriate for design and needles chosen			5		
Pattern pieces fit together			8		
*Pattern sizing is appropriate and proportional			5		
*Construction makes sense for garment or piece as designed			2		
*Schematics measurements are sufficient for garment or piece			6		
Gauge of garment or piece matches pattern gauge	Need to measure actual gauge on garment		10		
Sample garment measurements match pattern			10		
Total			100	0	0
